QUANTITY	Ten sleeves
SIZE	3 x 8 in
RANGE	Five paper textures
ARTWORK	One-color sample design
INCLUDED	Dimension sheet

Planning your sample project

How do you check the fit?

A dimensional brief records the item, protective allowance, and packing method. A physical sample is reviewed with the actual product before a production run.

Does recyclable mean accepted everywhere?

No. Material type and local collection rules matter. The sample catalog identifies paperboard or polypropylene without claiming universal recycling acceptance.

Can packaging include printed artwork?

Print-ready artwork can be added after size and material are approved. Ink coverage, finishing, and the number of artwork versions affect the quote.

Do you provide shipping certification?

The examples show packaging design and sampling only. Any required transit testing or certification would be separately specified and independently performed.

Scope and ordering notes

Prices cover the quantity and specification stated on each product page. Artwork changes, delivery, installation and unusual materials are scoped separately where applicable. This demonstration does not accept orders or payments.

All photographs and brandmarks were created for this fictional business. Product dimensions and specifications describe the authored demo range; images are illustrative.
