RENTAL WINDOW	24 hours
POWER SOURCE	Portable power station
INCLUDED	Sheltered cable reel; transport case
BEFORE USE	Agreed load plan
EXCLUDED	Fuel generator

Planning your sample project

How long is one rental day?

A rental day is 24 hours from the agreed pickup time. Extensions need confirmation before the original return time and are priced in full additional days.

Is a deposit included in the displayed price?

No. A sample refundable equipment deposit of $150 is shown in the rental conditions; damage, missing accessories, or additional cleaning would be itemized.

What is checked at pickup and return?

The handover list records the equipment, accessories, visible condition, and operating notes. The same list is used when the kit returns.

Can you deliver equipment?

Portland-area delivery can be scoped separately by distance, access, and load size. The displayed rental rate assumes counter pickup and return.

Scope and ordering notes

Rental examples cover the stated 24-hour period. Setup, compatibility, transport and return conditions are reviewed before a real hire. No rental request, payment or reservation is accepted by this demonstration.
